What you get

- A repeatable system that books qualified meetings without hiring SDRs.
- Inbox health engineered: dedicated domains, SPF/DKIM/DMARC, warming, seed tests.
- Reply triage proposes two time slots and books directly on your calendar.
- Daily snapshot: sends, bounces, inbox %, positive replies, meetings, show rate.

Scope (what's included)

- Targeting & data: 600–1,000 verified decision-makers/month; ICP segmentation; de-dupe; suppression/DNC.
- Deliverability: 2–4 sending domains; SPF/DKIM/DMARC; warmed inboxes; tracking subdomains; seed monitoring.
- Messaging: two short email sequences (7 touches each) + 5-step LinkedIn cadence; 1–2 sentence personalization.
- Orchestration: reply triage → propose 2 slots → calendar booking → CRM updates, tasks & SLAs; OOO/referrals handled.
- Reporting: daily snapshot + weekly optimization experiments.

Timeline

- Week 1 — Setup: ICP, domains/DNS, warming, data pull, sequence drafts, seed tests.
- Week 2 — Go-live: 60–120 sends/day; first meetings book.
- Weeks 3–8 — Ramp & optimize: scale health-gated; A/B subjects/first-lines; re-engage drips; light ABM wave.

Pricing

- Setup: $2,500–$4,000 (one-time)
- Monthly: $2,500 / $4,000 / $6,000 (targets: ~20 / 35–45 / 50–60 QMs/mo)
- Optional bonus: $120 per meeting above target
